Attention Students:

The Students' Association, in cooperation with the N-Division Radiological Sciences Educational Initiative and the Diversity/Affirmative Action Board (DAAB) is pleased to inform you of the upcoming special LANL student tour of the Trinity Site. The tour has been scheduled for all day Friday June 11, 2004.

The original mission of the scientists who gathered at Los Alamos in the 1940s was to create the first atomic weapon. The group was successful on July 16, 1945. The Los Alamos National Laboratory is a direct result of their achievements, and we are pleased to provide the LANL summer students this opportunity. Usually only open to the public twice a year, the Trinity Site has granted the Students' Association special private access to Ground Zero and the McDonald Ranch House.

Unfortunately, space is very limited. Students who wish to attend this event **MUST** follow the instructions below in a timely manner. The system for reserving a seat on the bus is **FIRST COME FIRST SERVE!**

1. Review the attached trip itinerary
2. Complete the Participant Information Sheet, ***including all signatures***
3. Choose your lunch option, and indicate on the Information Sheet
